FEATURES

Stainless steel interior & exterior

Digital controller & LED display

LED on top & under each shelf

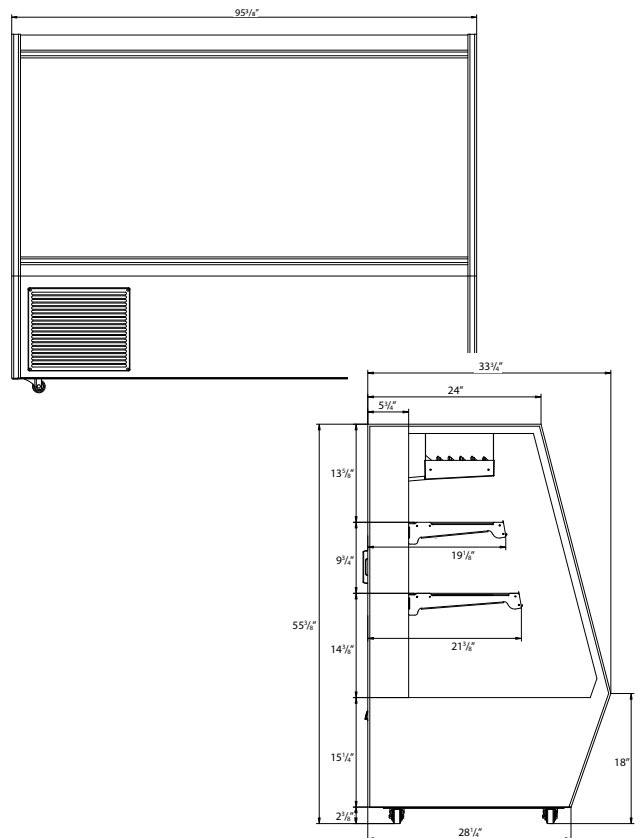

Gravity coil refrigeration

Adjustable glass shelves

Rear sliding glass doors

GRAVITY COIL systems boast a refrigeration coil at the top of the cabinet that allows cool air to drop down over food, reducing airflow within the case.

These types of display cases are best for raw meat, cheese, seafood, salads, & other deli products where avoiding the drying effect of constant air circulation is important.
